The Great August Sales are Going at Full Speed Ahead

LET BUSINESS ALONE

—and the country will be prosperous.

Most business is legitimate—all successful business must be.

Profiteers should be punished, but just because business men make money they should not be looked upon with suspicion. You cannot build a great community or a great nation that way. When business men are making money they are buying goods and paying for them. That gives men and women employment and puts money into circulation.

When business men do not make money they become bankrupts. And the country is filled with bad debts. That hurts every one.

If you will produce your share of the things needed, the supply will begin to meet the demand and prices will return to normal.

And that's all there is to it.

Think, Men, First of

Woven Madras Shirts

and Then of the Price

\$3.00

That's the combination our Men's Shop is offering for farsighted men tomorrow, and, unless we miss our guess, there'll be a great many new friends added to the already long list of "boosters" for our Men's Wear Shop.

The smart colored striped patterns are woven through the cloth and will hold indefinitely—included also are a great many of the white on white stripe patterns. The cut and finish are all that could be desired of a well made shirt. Soft cuffs, of course.

And we are still offering a big selection of Printed Percalé and Madras Shirts at \$2.29. They are mighty good shirts, too.

August Sale of Woolen Dress Goods Its a real money-saving opportunity—

You Are Sure to Need Shoes!

Why Not Buy Them
While Our Prices
Are Low?

\$5.65

—is the price, and a very low one it is. There is no possibility of being able to purchase your shoes at this unusually low figure again.

High Shoes, which are not near as stylish as low shoes and spats, are going to be twice as much, and in many instances three times as much, as the price you will pay if you buy them from us now.

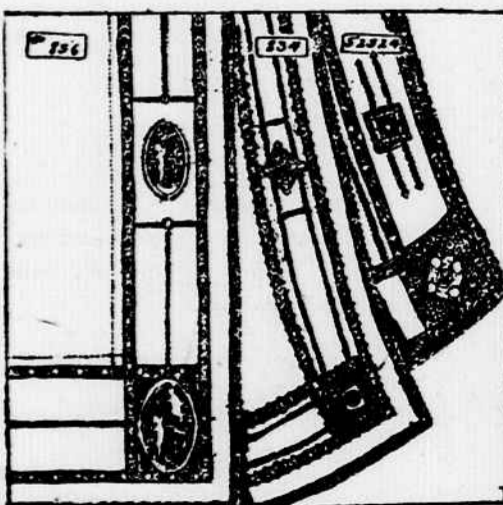

Think this over, but don't take too long about it—for at present there is an excellent variety of styles, despite the demands which have already been made upon the stock—but they won't last forever, and unless you act as promptly as your conscience dictates, you are likely to be left out.
